

COMPANY FACTS

Company name: CoGoJets, LLC
National headquarters: Omaha, Nebraska
Website: www.CoGoJets.com
Founded: 2008

FOUNDER: JAMIE WALKER, CEO, COGOJETS

CoGoJets founder and Chief Executive Officer Jamie Walker also serves as the CEO of JET LINX Aviation. JET LINX Aviation, founded in 1999, is an FAA Part 135 on-demand charter operator offering charter and aircraft management services on a national platform. JET LINX currently operates 24 aircraft with six bases of operation. Jamie is responsible for executing the sales, marketing and business development for the CoGoJets and JET LINX companies.

COGOJETS CONCEPT

CoGoJets is your online meeting place to create the shared use of a private jet on a per-seat, pro rata basis. It's a membership community of like-minded people, going to the same destinations, who coordinate their private jet travel plans through a negotiation of desired flight terms and collectively book a private jet together. CoGoJets then acts as an agent and finds a private jet to accommodate the sharing members' travel itineraries. By doing so, CoGoJets members enjoy all the benefits of private jet travel and the per-seat economy of commercial travel.

COGOJETS MISSION STATEMENT

CoGoJets' mission is to maximize the use of private jet travel by providing a more fiscally minded and environmentally responsible solution to private jet travel.

COMMITMENT TO SAFETY

The network of aircraft operators who perform service on behalf of CoGoJets adhere to FAA Part 135 regulations – the highest and most stringent standard of safety for private aviation. In addition, the operators must maintain an ARG/US Gold safety standard, which is verified prior to each and every flight by conducting an ARG/US trip CHEQ on the operator, aircraft and crew.

COGOJETS MEMBERSHIP

Annual membership fee:

\$2,500 – Access to CoGoJets' nationwide database of members available to share Light Jet, Midsize Jet and Heavy Jet flights.

COGOECO PROGRAM

Members have the opportunity to participate in a unique environmental initiative each time they arrange travel through CoGoJets. CoGoJets has partnered with Sustainable Travel International™ to allow members to calculate the environmental impact of their flight and offset carbon emissions through voluntary donations. By participating in the CoGoEco Program, CoGoJets members support responsible travel and ecotourism, sustainable development and help protect the cultures and environments they visit.
